

HB - Early Head Start Individual Education Screening Record

ASQ-3 & ASQ-SE Timeline = Screen at the age of 2 months and again at 4 months, then every 4 months until 24 months. After 24 months - every 6 months (Exception: A rescreening in a shorter time-frame may be recommended by the Disabilities/Mental Health Coordinator for children with scores that are low but not below the cutoff points in several areas of development. NOTE: When a child scores in the **GRAY SHADED AREA**, circle the date to track progress.

Note: The child's chronological age (months and days) must be determined to match the ASQ-3 tool, before every screening. Child must be screened using the correct age interval questionnaires to obtain accurate outcomes.
